Shari,

I hope this letter of mine finds you in great spirits! On behalf of the Rotary Club Bakersfield Twilight, we would like to take this opportunity to thank you for giving up on your valuable time to talk at our program this last Wednesday night. It was a great pleasure to hear you talk about the essential need of harvesting the forthcoming avalanche of surplus edible food to feed people in need. From those in attendance it was quite apparent they were engrossed by your talk.

Your dynamic presentation was uplifting and informative for those of us not understanding the enormity of the Labors of the Harvest concerns for gathering, sorting, storing and redistributing this much needed service.

With your presentation, it made possible for us a successful meeting event. From your generosity to spare your time for us, we were able to make our individual and collective evaluation of becoming future volunteers in partnership with you. There is so much more to learn from your knowledge and experience.

We wish you great fortune and success with all your future endeavors. Again, thank you for being available to share this important subject with us.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read "Brad Henderson", followed by a horizontal line.
